**\*New - HARDCORE:** Be ready to work and tone up that 6-pack with this power-packed 55 minute core ONLY class! Focus on strengthening the abdominals and the lower back while utilizing resistance equipment such as stability balls, medicine balls, The Bosu and more! ❖🕒■

**RIPPED Abs and Arms:** Legs need a rest? No excuse to skip the gym. With this 45 minute upper body and core blast you will leave leg rested, arms sculpted, and ab-dominally TONED! ❖🕒■

**New: UpperBody Blast:** Legs sore and limited on time? Try this 30 Minute Blast of UpperBody exercise combinations for a real Back, Bicep, Shoulder, and Chest Burn!! ❖🕒■

**New: LowerBody Blast:** There's nothing better than a power leg burn. Knock out your squats and lunges safely and effectively in this quick 30 minute LowerBody challenge class! ❖🕒■

ACSM Recommendations for Resistance Exercise:

- Adults should train each major muscle group two or three days each week using a variety of exercises and equipment.
- Very light or light intensity is best for older persons or previously sedentary adults starting exercise.
- Two to four sets of each exercise will help adults improve strength and power.
- For each exercise, 8-12 repetitions improve strength and power, 10-15 repetitions improve strength in middle-age and older persons starting exercise, and 15-20 repetitions improve muscular endurance. Adults should wait at least 48 hours between resistance training sessions.

**Circuit Blast!** Jump from station to station for an intense calorie burning and strength training workout all in one! With our top of the line fitness equipment including BOSU balls, Jump Rope, Gliders, Ladder maze and more...we guarantee you will leave sweating, satisfied, and one step closer to your fitness goals!! Please note: Sign up is required.🕒■

**F.I.T:** In this Functional Interval Training class, your intensity level varies throughout this class to maximize your workout results. Each interval will provide new challenges to help you improve your functionality, strength and endurance. The intervals will include a variety fitness equipment and formats including Core Stability, Plyometrics, Kickboxing, Strength Training and more.🕒■

**Fitness Xtreme:** Enjoy outdoor workouts?? Try this high-intensity circuit-style outdoor group exercise class that combines a wide array of functional movement exercises intermixed with cardio intervals, group challenges, gymnastics, battle ropes, free weight, band work, parachutes, sledgehammers, kettlebells, tires and more!! Not to mention the extra challenge by the Florida heat and humidity!!!🕒■

**Sunset Interval Run:** Looking for a group class with some fresh air? Seeking a challenging and exciting approach to working out? Then come join Maria, Lindsay and Caroline for a unique 55 minute interval RUN class outside at the GOLD CIRCLE LAKE! The class will focus on a variety of fun running drills in combination with total body functional intervals. Please note: This class does not focus on teaching the fundamentals of running, in order to participate in the class you must be able to run/jog. A signed waiver is required prior to the start of class.🕒■

**TABATA:** Interested in interval training the most time efficient way? Six 20 second exercise combinations with 10 second recovery and repeat 8X each. Time will fly and you will leave 300 calories less! Come check out a unique way to *train* in this 35 min high intensity interval training class!!🕒■

ACSM Recommendations for Neuromotor Exercise:

- Recommended for two or three days per week.
- Exercises should involve motor skills (balance, agility, coordination and gait), proprioceptive exercise training and multifaceted activities (tai ji and yoga) to improve physical function and prevent falls in older adults.  
20-30 minutes per day is appropriate for neuromotor exercise

## Neuromotor Exercise

## Flexibility Exercise

**PILATES:** The Pilates method of body conditioning is a unique system of stretching and strengthening exercises developed over ninety years ago by Joseph Pilates. It strengthens and tones muscles, improves posture, provides flexibility and balance, unites body and mind, and creates a more streamline shape. ❖⊙■

**YOGA FLOW:** Incorporate FLEXIBILITY and STRENGTH into your exercise routine with YOGA. There are many styles and approaches to a yoga practice. Each practice session and instructor is unique and endeavors you to move you in a calm and focused way. ❖⊙■

**POWER YOGA:** A yoga flow class with added spice of intensity with quicker transitions from pose to pose. ⊙■

**ZENERY YOGA:** A vigorous, flowing, fitness-based approach to yoga. Each power yoga class can vary widely from the next but generally emphasizes strength and flexibility with continuous movement. ❖⊙■

**YOGA STRETCH:** Beginners to intermediate level yoga session which will stretch your muscles, relax your mind, and relieve your stress with the combination of meditation, breathe work, gentle stretches, and yoga poses; you will be on e step closer to preventing injury and provide a balance to your strength training and sports training routine. ❖⊙■

**\*New – RELAX AND ROLL-COVERY–** Come repair, recover, and reward yourself with the magic of the FOAM ROLLER in this quick 30 minute stretch, relaxation, yoga, and foam roll fusion class. ❖⊙■

**ACSM Recommendations for Flexibility Exercise:**

- Adults should do flexibility exercises at least two or three days each week to improve range of motion.
- Each stretch should be held for 10-30 seconds to the point of tightness or slight discomfort.
- Repeat each stretch two to four times, accumulating 60 seconds per stretch.
- Static, dynamic, ballistic and PNF stretches are all effective.
- Flexibility exercise is most effective when the muscle is warm. Try light aerobic activity or a hot bath to warm the muscles before stretching.
